Attention: Mr. B. Batchelder
Mapping and Airphoto Librarian

Dear Bob:

We have enclosed the signed form "Offer of Donation to the University Libraries."

For those negatives which were exposed over unidentified wilderness regions, we are in agreement with your suggestion that such films are of little value and should be destroyed.

Yours very truly,

KENTING EARTH SCIENCES LIMITED

Mr. Ed Anderson
Kenting Earth Sciences Ltd.
380 Hunt Club Road
Ottawa

Dear Ed:

Re: Offer of Donation form for last donation of air photo negatives.

Attached is the form which I recently mentioned to you on the phone.

Would you please sign it and add any other information you may wish?

When you return it to us, we will complete the paperwork for this donation and you will receive another tax receipt from us.

These negatives have been deposited at the Glenbow also. We will start to go through them later this summer to select those which we will not keep. These will be generally in wilderness areas. These rolls came to us with very little documentation and we will likely have some difficulty in locating the site photographed. Those rolls which we decide not to keep will be destroyed.

If there are any problems with the above, please let me know.

Thank you.

Yours truly,

Bob Batchelder,
Map and Air Photo Librarian.
